

# YJ-8572 全自動鞋墊轉印機

## FULLY-AUTOMATIC INSOLE TRANSFER MACHINE

### 用途Use:

該機適用於鞋墊標籤燙印。

This machine is suitable for the label of the shoe pad.

### 規格Specification:

電壓	VOLTAGE	AC220V/50HZ
氣壓	AIR PRESSURE	4kg/cm <sup>3</sup>
功率	POWER	0.6KW
外形尺寸	SIZE	L1150*W880*H1610
淨重	N. W	300kg

### 特性Features:

熔

1. 該機採用精密的氣動機構自動抓取擺放材料同步動作，自動旋轉標籤、快捷準確定位、節省時間、燙印效果、標準美觀。
  2. 設有兩組置料結構設計，自動化作業不停機，通過該機的使用能提高產量效率，一名員工可以同時照料多機，節省人力資源。
  3. 機器可根據材料的熱熔時間與溫度靈活調節，2.5~3.5秒能完成一只鞋墊。
1. The machine adopts precise pneumatic mechanism to automatically grab the material synchronization action, automatic rotation label, fast and accurate positioning, saving time, hot stamping effect, standard and beautiful.
  2. With two sets of structure design, automatic operation without stopping, through the use of the machine can improve production efficiency; an employee can take care of multiple machines, saving human resources.
  3. The machine can be flexibly adjusted according to hot melt time and temperature of the material, an insole can be completed in 2.5 ~ 3.5 seconds.
