

YJ-787 電腦智能折邊機

COMPUTER INTELLIGENCE FLANGING MACHINE

特點 Features :

- (1) 用於製鞋業、製包業、皮具業、手機套等皮製品的 PVC、PU、天然皮、人造皮、帆布等材料, 使用熱熔膠折邊作業。

The machine applies to the seams of the uppers, bags, mobile phone sets, etc. all kinds of leather goods PVC, PU, natural leather, artificial leather, cloth material of gluing, adding strong belt, hammer flat multi process integration operation. cell phone case and etc.

- (2) 外彎、直線、內彎折邊拉動行程可分別設定。

Outer bend, straight line, inner bend and pull stroke can be set separately.

- (3) 內彎折邊時，寬度自動補償，自動切剪。

When inner bend is folded, the width will be compensated and the shear is automatically cut.

- (4) 光電眼感應位置可選擇，控制折邊自動變化。

The photoelectric eye sensing locations can be selected in order to control the automatic change of folding edge.

參數 :

- 機身尺寸：1080×700×1200 mm
- 電壓：220V / 380V
- 總功率：1.7 kw
- 包裝尺寸：1200×800×1450 mm
- 機器重量：淨重 180 公斤 / 毛重 245 公斤

Parameters :

- Exterior size : 1080×700×1200 mm
- Voltage : 220V / 380V
- Power of motor : 1.7 kw
- Packing dimension : 1200×800×1450 mm
- Weight : NW 180 kg / GW 245 kg
